DETAILED ACTION

Response to Remarks

1. Applicants' arguments and amendments, filed on 8/21/03, have been approved and entered. They have been fully considered but they are not deemed to be persuasive. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn. The following rejections and/or objections are either newly applied or reiterated. They constitute the complete set presently being applied to the instant application.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 71-79 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claim 71 have the added limitation "wherein said amino acid is not methylglycine and is not dimethylglycine". There is no written basis in the specification as filed of "wherein said amino acid is not methylglycine and is not dimethylglycine". Therefore this is New Matter.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 71-79 are rejected under 35 U.S.C. 102(b) as being anticipated by Chamberlin et al. (WO 95/20682).

Applicants have the argument that the reference does not disclose the instant invention because the instant claim 71 does not disclose dimethylglycine . Further, Applicant have amended claim 71 to eliminate dimethylglycine and methylglycine. This is not convincing because Chamberlin discloses starting in page 8 amino compounds that are viewed to be inclusive of the amino acid of the instant claim 71. Even though applicants have removed dimethylglycine and methylglycine from instant claim 71, Chamberlin discloses a formula as being inclusive of the amino acid of the instant invention and betaine as being referred as NNN-trimethylglycine (page 6) is one example only (see page 10, lines 20-29).

5. Claims 55-70 are allowed.

6. **THIS ACTION IS MADE FINAL.** See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for response to this final action is set to expire THREE MONTHS from the date of this action. In the event a first response is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then

Art Unit: 1637

the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event will the statutory period for response expire later than SIX MONTHS from the date of this final action.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jezia Riley whose telephone number is 703-305-6855. The examiner can normally be reached on 9:30AM - 5:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gary Benzion can be reached on 703-308-1119. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.
